

CYBERSECURITY WORKSHOP TRAINING

DFARS 204.73 / NIST SP 800-171

Northrop Grumman, in collaboration with the USC Center for Economic Development, is offering free cybersecurity training to small businesses through an Air Force Small Business Office Mentor Protégé Program. This workshop is open to all small businesses. Advance registration is required.

WORKSHOP OBJECTIVES:

The primary purpose of our one-day 8-hour workshop is to ensure that small businesses are aware of the cybersecurity requirements mandated under Defense Federal Acquisition Regulations Supplement (DFARS) Subpart 204.73. We will focus on understanding the risks associated with safeguarding unclassified DoD information.

The workshop will focus on the groups of controls from NIST SP 800-171, with examples highlighting what happens when these controls are not implemented. By the end of the workshop, you will become familiar with all 110 controls and be able to better identify the areas where you may need greater focus to meet the DoD's cybersecurity expectations. We hope you'll join us.

DATE & TIME

DECEMBER

20

Thursday
8:00 AM - 5:00 PM

IN PERSON

USC Ralph & Goldy Lewis Hall
650 Childs Way, Los Angeles, CA 90089
Room 101
